

Sponsorship Program Details

Full sponsorship of a child student through Hope Shines, Inc. for \$61 USD/month or \$732 USD/year, provides **crucial** support needed by that child and his or her family, and it creates a sustainable and dependable pathway for the child, which will in turn incubate their development from child through adulthood! Hope Shines invests in the lives of the most at need young children ages 7 years old and up. Your support is a lifeline to better opportunity for a child, one of which may not exist otherwise!

A full student sponsorship provides:

- **Annual preventative medical checkups**, which helps identify issues early and get the care and attention they need
- **A daily cooked nutritious meal with clean filtered water** during programming
- **On-going Health and hygiene training** (empowering them to healthier living)
- **The child's ability to attend school and have all needed supplies**, including health insurance
- **Mentoring** by adults in a positive space AND ultimately more **Hope** that they are loved and cared for as they grow into adulthood
- **Access to** a Licensed Social Worker that addresses and treats psycho-social challenges

When you commit to FULLY sponsor a child student, you will receive*:

- An updated child photo and their background story profiled. Each year he or she will face new challenges and celebrate successes.
- A written letter 3 times per year with updates and the progress and challenges faced. Letters will be written after each of the three school terms during the year.
- The ability to write back to your child (should you choose), which can develop a deeper connection with the child
- An abundance of heart-warming satisfaction knowing that you are saving lives!

When a child learns they are sponsored, the joy they experience is like none other. Sponsorships works and is at the core of all we do at Hope Shines. Many of our own staff in Rwanda were sponsored as children in other organizations and have gone on to become educated and successful citizens, also believing in giving back. A sponsorship today can and will change the course and direction for a child living in poverty and will help finally break them of the perpetual poverty cycle.

*Partial donations towards sponsorship are most appreciated! The above list of what a sponsor receives applies to those who FULLY sponsor the child for at least a year either through the monthly or yearly installment.
